COMPANY OVERVIEW

We are not an IT company - we are a Business Transformation company. We apply the appropriate use of technologies to business processes resulting in Digital Transformation of the business.

DAS Consulting Australia is a professional service provider with extensive experience providing our ERP clients with solutions across a range of asset intensive industries since 2011. Our solutions satisfy business objectives by harnessing our domain knowledge and matching it with the inherent ERP system capabilities.

We provide ERP services, products, advice and assessments to private and public enterprises, specialising in asset intensive enterprises.

Enterprise Asset Management | Product Lifecycle Management | Supply Chain Management | Logistics | Aerospace | Defence & Security

OUR SERVICES

DASC

Resource Augmentation

Strategically manage your workforce by tapping into a vast network of SAP and IFS specialists, handpicked to match specific project requirements. Ensure that your project is staffed with top-tier professionals who bring a wealth of industry-specific knowledge and best practices to the table. These seasoned experts seamlessly integrate into the project team, offering valuable insights, guidance, and hands-on support throughout the project lifecycle.

Master Data Integrity

Experience the power of data automation as our solution eliminates repetitive tasks, enhances data quality, and reduces errors. Intelligent workflows, rules-based automation, and data validation mechanisms work together seamlessly, saving time and boosting efficiency. Say goodbye to manual processes and embrace cutting-edge Low Code / No Code Master Data Governance & Stewardship solutions. By leveraging this innovative technology, you can streamline the entire master data lifecycle, from extraction to transformation and load.

Change Management

Transform learning and change management with ERPSim™ Simulation for SAP. Experience the excitement of competitive teams collaborating to conquer real-life business challenges using live SAP ERP scenarios. This innovative approach fosters active engagement, boosts change management excellence, fuels thrilling competition, and creates a fun learning experience. Unlock the transformative power of gamification for adult learners and propel your organisation's training initiatives to new heights.

OUR PARTNERS

DASC

At DAS Consulting Australia, we leave no stone unturned in our pursuit of excellence. That's why we search the globe for partners who can provide tailored solutions to address the challenges encountered during implementation projects. Our carefully chosen network of trusted partners is dedicated to helping us help you.

By joining forces with these partners, we gain access to cutting-edge tools and resources that make your implementation journey smoother than ever before. From innovative software solutions to specialised expertise, our partnerships enable us to overcome obstacles and optimise project flow.

When you choose DAS Consulting Australia, you're not just benefiting from our expertise; you're tapping into a vast ecosystem of industry-leading collaborators. Together, we bring you the best-in-class tools and support to ensure your project's success.

OUR PERSONNEL

At DAS Consulting Australia, we believe in a personnel philosophy that sets us apart and drives our success.

1. Experience Matters: We prioritise hiring professionals with proven project experience, recognising the value they bring to our team. We seek individuals who have demonstrated their ability to navigate complex projects and deliver exceptional results.

2. Beyond ERP Expertise: While ERP experience is crucial, we also highly value candidates with domain knowledge in specific industries. This ensures a comprehensive understanding of our clients' unique needs and allows us to provide tailored solutions that go beyond technology.

3. Aligning Knowledge: We strive to match our consultants' business domain expertise with the specific industry and IT requirements of our clients. This alignment enhances collaboration and enables consultants to make informed decisions that drive success.

4. Trust through Connections: We maintain a strong network and rely on trusted industry contacts when hiring. Our preference is to work with individuals we have previously collaborated with or who come highly recommended, ensuring a level of trust and familiarity from the outset.

5. Flexible Engagements: Whether you require an individual contractor or an entire team, our experienced professionals are adept at seamlessly integrating into new environments. They possess the skills to collaborate effectively with both unfamiliar faces and long-standing partners.

6. Resolving Personality Clashes: While rare, we acknowledge that personality clashes can occasionally occur. In such instances, we are committed to swiftly addressing the issue. If a consultant and client are incompatible, we will readily provide a replacement without imposing additional costs on our clients.

These principles form the foundation of our success, fostering collaboration and delivering exceptional results.

MEET THE TEAM

Keith Johnson

Managing Director

Keith originally founded DAS Consulting Australia in 2011 and brings extensive expertise in Military and Commercial physical asset management. With a distinguished background as an ADF veteran and a successful career in SAP functional consulting and architecture, particularly focused on Enterprise Asset Management, Keith has proven to be a driving force in the industry.

Erin Wright

Director of Governance & Finance

With 20 years of invaluable experience in Finance and Compliance, Erin is a dedicated professional with a strong focus on corporate governance. Her extensive expertise and broad background enables her to ensure our company maintains high compliance standards across industries. Erin's practical experience and ability to navigate complex requirements make them a trusted asset who drives our commitment to excellence.

Courtney Merritt

Director of Recruitment & Training

Our people are our greatest strength, and Courtney plays a crucial role in upholding our high standards. With a background in heavy industry recruitment and training, Courtney brings valuable expertise to our team. Her focus is on ensuring that our personnel undergo thorough vetting and compliance procedures before stepping foot on client sites. With Courtney's dedication, we can confidently provide clients with qualified and compliant professionals who are ready to excel in their roles.

Compliance

At DAS Consulting Australia, we acknowledge the importance of collaborating with internal and external stakeholders to achieve our safety objectives. Regular reviews and updates of our Safety Manual are carried out to ensure its effectiveness. Moreover, we recognise our moral and legal obligation to provide a safe and healthy work environment at all DAS Consulting Australia locations under the WHS Act. Our commitment to safety extends to our entire team, encompassing both immediate and broader stakeholders.
